

Claremont Unified School District

CODE OF CONDUCT for Elementary School Students

In order to provide a safe and productive learning environment at all elementary schools in the Claremont Unified School District, a climate is created in which optimal learning will occur. This means all elementary school students will:

- 1. Act in a safe and responsible manner**
- 2. Respect the rights and property of others**
- 3. Come to school ready, willing and prepared to learn**
- 4. Display honesty, integrity and caring at all times**

Since all individuals are unique, no one procedure, method or response to a given situation is appropriate in every case. In helping a child develop individual responsibility and leadership, while upholding the above-mentioned Code of Conduct, each school has established guidelines that are contained in the Student Parent Handbook.
